Summary

Fullstack Developer with a strong passion for **Web3 technologies**, AI integration, Cybersecurity and continuous growth. Experienced in building efficient, responsive web applications using HTML, CSS, JavaScript, React.js, Next.js, Node.js, PostgreSQL, and MySQL. Proven ability to work in fast-paced environments and adapt to new technologies. Enthusiastic about solving complex challenges in **web development and blockchain applications**.

Project Experiences

• ChillMovie Web

- Built a responsive movie search platform using React.js and Node.js.
- Optimized API integration to reduce loading times by 25%.
- Implemented dynamic filtering of movies based on categories and ratings.

• Web3 Analysis Dashboard

- Developed a decentralized application (dApp) with **Web3 integration** and MetaMask wallet connection.
- Enabled crypto price tracking and AI-powered analysis for various cryptocurrencies.
- Added up-to-date airdrop information to help users stay informed on the latest opportunities.

• Crypto Price Tracker

- Built a real-time crypto price tracking web application showcasing **Bitcoin, Ethereum, and XRP Ripple**.
- Implemented API integration for dynamic price updates and historical data visualization.
- Focused on user-friendly design for seamless experience.

• Yourlifechoices Landing Pages

- Created landing pages for **Yourlifechoices**, a website for an Australian company.
- Designed a clean, responsive interface to reflect the brand's values and drive user engagement.
- Utilized HTML, CSS, JavaScript, and React.js to optimize page loading speed and SEO.

• To-Do List Application

- Developed a task management system with React.js, Node.js, and Express.js.
- Integrated priority sorting and time reminders, improving user productivity by 20%.

• Majalengka Web

- Designed and developed an informative website about Majalengka's culture and tourism using HTML, CSS, and Bootstrap.
- Focused on user-friendly navigation and accessible design, enhancing UX for diverse user demographics.

• Berang-Berang Pukul Game

- Created an interactive web game with dynamic JavaScript-based game logic.
 - Designed animated visuals and user interactions using HTML/CSS.
-

Professional Experience

• GAOTek Inc. – Web Developer Internship

- Contributed to the development and maintenance of various web applications for a global tech company based in **New York City, United States**.
 - Assisted in improving user interface and back-end functionalities using WordPress and PHP.
 - Collaborated with a team of international developers to meet project deadlines and optimize performance.
-

Education

SMK Ilman Nafiah Cirebon

Major: Computer and Network Engineering (2020 - 2023)

Course, Training, and Certificate

Harisenin.com Bootcamp

Fullstack Web Developer Bootcamp Graduate (2024)

Skills

Technical Skills:

HTML, CSS, JavaScript, Python, React.js, Node.js, Next.js, Express.js, Tailwind, Git, MySQL, Postman, Solidity, Web3.js, Ethers.js, AI Integration

Soft Skills:

Time Management, Analytical Problem Solving, Effective Communication, Team Collaboration

Languages:

Indonesian (Native), English
