PROFESSIONAL SUMMARY

Full-Stack Developer with solid experience in backend development using Node.js and Express.js, complemented by frontend capabilities using React.js and Next.js. Adept in building scalable web applications, developing RESTful APIs, and maintaining clean, maintainable codebases. Skilled in deploying full-stack solutions from end to end.

In addition to web development, experienced in **AI integration and workflow automation using n8n**, enabling businesses to optimize operations with intelligent and automated systems. Passionate and capable in Web3 development with hands-on experience using Solidity, Web3.js, Ethers.js, Wagmi, and RainbowKit for dApp and smart contract integrations. Also possesses strong interest and foundational skills in cybersecurity, particularly penetration testing, recognizing its critical importance in ensuring backend robustness and overall system security.

Highly enthusiastic about technology with a strong willingness to continuously learn and explore emerging tools and frameworks. Eager to contribute to forward-thinking teams, bringing an open mindset and limitless drive to grow, adapt, and master new technologies across Web2, Web3, and AI landscapes.
