Summary

Fullstack Developer with a strong passion for web technologies and continuous growth. Experienced in building efficient and responsive web applications using HTML, CSS, JavaScript, React.js, Node.js, and MySQL. Proven ability to work in fast-paced environments and adapt to new technologies. Enthusiastic about solving complex challenges in web development.

Project Experiences

- **ChillMovie Web**

    - Built a responsive movie search platform using React.js and Node.js.
    - Implemented features for filtering movies by categories and ratings.

- **To-Do List Application**

    - Developed a task management system with React.js, Node.js, and Express.js.
    - Integrated task prioritization and time reminders to improve user productivity.

- **Majalengka Web**

    - Designed and developed an informative website about Majalengka's culture and tourism using HTML, CSS, and Bootstrap.
    - Focused on user-friendly navigation and accessible design.

- **Berang-Berang Pukul Game**

    - Created an interactive web game using JavaScript for game logic.
    - Designed dynamic visuals and animations with HTML/CSS.
