Role: Fullstack Developer

---

**Personal Statement**

I am a **Fullstack Developer** with a strong passion for continuous learning and growth. I have experience in web application development using technologies like **HTML, CSS, JavaScript, React.js, Node.js, and MySQL**. A graduate of the **Fullstack Web Developer Bootcamp at Harisenin.com**, I am committed to creating efficient and responsive solutions for every project I work on. With a strong motivation to constantly update my skills, I am ready to face various challenges in the tech industry.

---

**Education**

- **SMK Ilman Nafiah Cirebon**
  Major: Computer and Network Engineering
- **Harisenin.com Bootcamp**
  Graduate of the Fullstack Web Developer Bootcamp

---

**Skills**

- HTML, CSS, JavaScript
- Python
- React.js, Node.js, Express.js, Next.js
- Bootstrap, Tailwind
- Git, MySQL

---

**Portfolio Projects**

1. **ChillMovie Web**
   A web platform that allows users to search and explore movies based on categories, ratings, and popularity. Built with **React.js** and **Tailwind**, this project focuses on creating an interactive and responsive user experience.

2. **To-Do List Application**
   A web-based task management app that allows users to add, edit, and delete tasks. It features task prioritization and time reminders. Built using **React.js**, **Node.js**, and **Express.js**.

3. **Majalengka Web**
   An informative website designed to introduce the culture, tourist spots, and uniqueness of Majalengka Regency. The website is built with **HTML**, **CSS**, and **Bootstrap**, ensuring accessibility and easy navigation for visitors.

4. **Berang-Berang Pukul Game**
   An interactive game where players must hit otters that randomly appear on the screen within a limited time. Created using **JavaScript** for the game logic and **HTML/CSS** for the interactive visuals.
